CA's Regions and Statewide Trails Research &

The scope of this grant application is to complete the two projects described below:

I. California's Regions: A study and profile of outdoor recreation in California by region including a description

of each region's geography, demography, economies, natural and cultural resources and recreation supply and

demand. The product will inform the 2014 CORP and provide a basis for updating Open Project Selection

Process Project Proposal Criteria to respond to regional needs, thereby encouraging improved regional planning

for outdoor recreation and coordination of planning, acquisition, and development of outdoor recreation areas

and facilities.

II. Statewide Trails Research and Planning: Identify opportunities for local and regional recreation providers to

link their existing or planned trail systems to the California Recreational Trail System (CRTS)

using trail

information gathered through research, documentation, publication and collaboration. The three project tasks are:

1) Document the status of three CRTS trails that can be shared with agency trail managers statewide

(the Juan Bautista De Anza, California Coastal and the Pacific Crest Trails);

2) Analyze the CRTS status and assess opportunities and identify barriers to full CRTS development; and

3) Facilitate collaboration between agencies such as the NPS, CSP, US Forest Service, Bureau of Land

Management and other CRTS managing agencies.

SCORRP Planning Project

Alt Camping Survey 2007/08 \$10,000

The scope includes a study evaluating the effectiveness of a pilot alternative camping program. The results of this study will evaluate whether or not the alternative camping facilities provided through the earlier LWCF grant are addressing the needs identified in the 2002 CORP, such as the need for alternative camping and providing recreational opportunities for California's changing demographics. The survey results will be included in the future CORP and will be used as a decision-making tool to evaluate LWCF applications for future alternative camping projects.

The findings from the Alternative Camping Survey will be published in a stand-alone report due 8/31/2010.

A four-page project scope and timeline is attached and included in this agreement by reference.

All reimbursement requests must be accompanied by a billing progress report. NPS approval of the progress report must be obtained prior to any SMARTLINK drawdown of funds.

CORP Program Evaluation and Strategic Plan 2007/08 \$68,250

The scope is to evaluate the 2002 California Outdoor Recreation Planning Program and to develop a long-range Strategic Plan to direct future CORP Program development.

The work will be implemented in two concurrent phases:

Phase I - Evaluation of the California Outdoor Recreation planning Program, including the CORP. The evaluation will include assessment of the CORP's effectiveness in shaping outdoor recreation provider decisions, tracking implementation of CORP Actions, and a compilation of best planning and implementation practices for developing the Strategic Plan. The Evaluation Report is due 2/28/2010.

Phase II - A long-range Strategic Plan to direct future CORP Program development will be based on the data gathered during the Evaluation phase and include a CORP road map and procedure guide. The Strategic Plan deliverable is due 2/28/2010.

A six- page project scope and timeline is attached and included in this agreement by reference.

All reimbursement requests must be accompanied by a billing progress report. NPS approval of the progress report must be obtained prior to any SMARTLINK drawdown of funds.

Statewide Trails Research and Planning

CA's Regions and Statewide Trails Research & Planning 20

\$34,467

The scope of this grant application is to complete the two projects described below:

I. California's Regions: A study and profile of outdoor recreation in California by region including a description

of each region's geography, demography, economies, natural and cultural resources and recreation supply and

demand. The product will inform the 2014 CORP and provide a basis for updating Open Project Selection

Process Project Proposal Criteria to respond to regional needs, thereby encouraging improved regional planning

for outdoor recreation and coordination of planning, acquisition, and development of outdoor recreation areas

and facilities.

II. Statewide Trails Research and Planning: Identify opportunities for local and regional recreation providers to

link their existing or planned trail systems to the California Recreational Trail System (CRTS) using trail

information gathered through research, documentation, publication and collaboration. The three project tasks are:

1) Document the status of three CRTS trails that can be shared with agency trail managers statewide

(the Juan Bautista De Anza, California Coastal and the Pacific Crest Trails);

2) Analyze the CRTS status and assess opportunities and identify barriers to full CRTS development; and

3) Facilitate collaboration between agencies such as the NPS, CSP, US Forest Service, Bureau of Land

Management and other CRTS managing agencies.

Statewide Trails Research and Planning 2007/08

\$37,700

Improve the CORP by identifying opportunities for local recreation providers to augment their existing trail systems with regional trail information.

Task #1

Identify the California Riding & Hiking Trail ownership and condition within Riverside and San Mateo Counties with the following deliverables and completion dates; Spreadsheet of Parcel/Easement Ownership (9/30/08), Spatial Data Map(s) of Existing Corridor (11/30/08), Public Workshops (4/24/09) and Management Reports (5/30/09).

Task #2

Report on the current status of the California Trail Corridors as detailed in the California Recreational Trails Plan with the following deliverables and completion dates: Research Spreadsheet of Existing Status and Management Entity (9/30/08), Spatial Data Map(s) of Existing Corridor (10/30/08), Public Workshops (4/30/09) and a Consolidated Report including current and planned status of all of the 26 California Trail Corridors (5/30/09).

All reimbursement requests must be accompanied with a billing progress report. NPS approval of the progress report must be obtained prior to any SMARTLINK drawdown of funds.
